I love how easy the OSIM uRoller X-Sports is to use. Its vibration is powerful and the build is incredibly sturdy. There's no need to focus on stabilising the roller as the hand stays firmly on the ground.

I use the OSIM uZap Gun to release the tension in my muscles. I highly recommend it, as it helps with muscle soreness and the recovery process. Plus, it builds progress for lifting heavier weights.

Sundown Marathon injected a jolt of energy into Singapore's running scene when it became the nation's first night marathon in 2008, and the event hasn't looked back since. From a humble attendance of just over 6,000 in the first year, registration is expected to reach 35,000 in 2018, making us Asia's largest night marathon once again.

Being the nation's first night race to be nominated for awards like the prestigious International Sports Event Management (ISEM) Awards, Marketing Events Awards for the Best Sport-Oriented Event and the Singapore Sports Awards for the Best Sport Event of the Year (Local), we have developed the event from strength to strength.

For the 12th edition, runners can expect refinements and innovations and that will enhance their race experience and make their run a truly memorable one. We strive to deliver a race that will get runners talking, bragging and returning for more! Sleep can wait.

Rio De La Cruz

RUNRIO INC. was founded by President Rio De La Cruz, a UP Diliman alumnus, international marathoner and running coach. Rio started the business in 2007, under the company Entraîneur Events & Sports Management, to support his vision to grow and sustain running. With the growth of the running community, runners were clamoring for more than just a wellplanned route. This led the team to invest in innovations that would eventually raise the bar in organized sporting events in the country. Since then, RUNRIO has organized the majority of the premier races in the Philippines such as RUNRIO TRILOGY, MILO MARATHON, RUN UNITED, CONDURA MARATHON and many more.

The business portfolio of RUNRIO INC also includes race registration portal – Race Roster that is managed under DTE Endurance in Oceania. Established in Australia, DTE endurance owns and operates some of the largest events across the region which include over 150,000 participants annually.
